Medial (19 Ga.)	0.40	550	2736	not rated
Proximal (19 Ga.)	0.43	550	2760	not rated

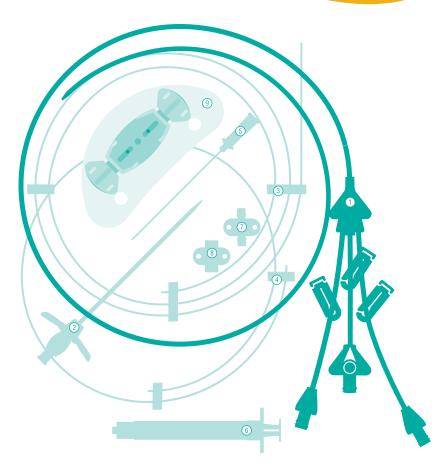

\* Priming volumes are approximate and are done without injection caps

<sup>†</sup> Flow rates were determined using room temperature water, 100 cm head height and represent approximate flow capabilities.

\* Pump flow rates are determined at maximum pump pressure of 10 psig and represent approximate flow capabilities. \*\*Pressure injection flow rates are determined at the injector pressure setting of 300 psi

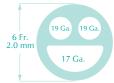

maximum using media of 11.8 centipoise viscosity, with 152 cm pressure tubing
