Warning: The results of certain animal experiments have shown phthalates to be potentially toxic to reproduction. Proceeding from the present state of scientific knowledge, risks for male premature infants cannot be excluded in the case of long-term exposure or application. Medical products containing phthalates should be used only temporarily with pregnant women, nursing mothers, babies and infants.

Not made with natural rubber latex.

Store between 20 – 25°C (68 – 77°F).
Sterilized using ethylene oxide unless otherwise indicated in the contents list.
Fluid path components are non-pyrogenic.

Contraindications: The Arrowg+ard Blue antimicrobial sheath introducer is contraindicated for patients with known hypersensitivity to chlorhexidine, silver sulfadiazine, and/or sulfa drugs (refer to product instructions for references).
